

HAIR

3-4yr CLASSES ONLY!

1. Put the hair in a very secure high ponytail. *Tighter pony means tighter bun!*
2. Make sure the hair is completely slicked back like the picture.
3. Twist the ponytail so that it starts to curve into the bun shape.
4. Bobby pin the hair to the back of the head as you twist into a bun to keep it secure.
5. Once the pony is completely twisted into the bun, use a hair tie and more bobby pins to secure. We find [THIS](#) type of anchor bobby pin works well to hold the bun. Or [THIS](#) one for thicker/longer hair.
6. Wrap a [HAIRNET](#) around the bun to contain any stray wispies and bobby pin as needed.
7. Lastly, spray heavily with hairspray to keep it slick, smooth, and stage-ready!
